End Application:

F-15 acft

Unpackaged Unit Length:

2.000 inches

Special Features:

Steel, 1.500 dia

Functional Description:

Used to adapt a standard torque wrench to the aileron actuator manifold and combination valve retainer

Reference Data And Literature:

Serd no. 1941; to 9h2-4-234-3

Supplementary Features:

Company item name-adapter, torque wrench servo valve retainer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
