End Application:

F/15a aircraft age.

Nominal length:

4.000 inches

Nominal width:

3.000 inches

Nominal height:

2.000 inches

Special Features:

Aluminum; company item name-test block, valve inlet check

Functional Description:

Used to simulate the environment of the aileron servocylinder housing, and permit application, and monitoring of pressure and flow to the inlet check valve

Reference Data And Literature:

Serd no. 1946

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
