End Application:

J85-ge-21 engine nozzle actuator system hydraulic power unit seris 34e94-11

Special Features:

Steel; to name: assembly block

Functional Description:

Used during engine component repair/maintenance

Reference Data And Literature:

To 6j3-8-13-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
