End Application:

Aircraft, model e-3a

Functional Classification:

Aa-9.1

Functional Description:

Depot level checkout and fault isolation of e-3a aircraft battery charger

Entry Date:

77-06-15

Reference Data And Literature:

T. O. 33da20-35-1

General Description:

16 gage aluminum alloy chassis; 110 v, 60 cycle, conventional line voltage, 115/200 vac, 400 hz, 3 phase, 4 wire

Type/model Designation:

J-3485/g

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
