End Application:

F-15

Special Features:

One driver 10.000 in. X 2.500 in. Dia, one holder, 1.120 in. X 5.000 in. Dia

Functional Description:

Used to install bearings on accessory drive gearbox clutch shaft during maintenance of the central gearbox

Unpackaged Unit Weight:

13.812 pounds

Reference Data And Literature:

Serd no. 9081

Supplementary Features:

Company name-holder and driver, bearing

Fsc Application Data:

Secondary power subsystem

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
