**End Application:**

F-15

**Special Features:**

One driver 10.000 in. X 2.500 in. Dia, one holder, 1.120 in. X 5.000 in. Dia

**Functional Description:**

Used to install bearings on accessory drive gearbox clutch shaft during maintenance of the central gearbox

**Unpackaged Unit Weight:**

13.812 pounds

**Reference Data And Literature:**

Serd no. 9081

**Supplementary Features:**

Company name-holder and driver, bearing

**Fsc Application Data:**

Secondary power subsystem

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
