End Application:

F-15 acft

Nominallength:

2.125 inches

Nominaldiameter:

0.750 inches

Special Features:

Steel, company item name tool, nozzle assembly

Functional Description:

Used to protect the p/n 53764 nozzle subassembly during assembly into the p/n 68912 port cap subassembly

Unpackaged Unit Weight:

7.000 ounces

Reference Data And Literature:

3209

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
