End Application:

F/15a aircraft age.

Nominal length:

11.188 inches

Nominal width:

2.500 inches

Nominal height:

3.875 inches

Special Features:

Matl: aluminum, stainless steel, polytetrafluoroethylene

Functional Description:

Used on connectors for azimuth/elevation servo valves

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
