End Application:

Navigation unit 7883450-051

Product Name:

Inertial system mount

Functional Description:

Asupports navigation unit during test. Provides precise rotation and air circulation through heat exchangers during testing. Provides access to signals and signal loads and other test situations

Reference Data And Literature:

To 5n1-4-8-2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
