End Application:

F-15 acft

Nominallength:

12.000 inches

Product Name:

Fixture, setup, aileron rudder interconnect ratio actuator

Nominalwidth:

3.500 inches

Nominalheight:

4.500 inches

Special Features:

Aluminum and steel, has dial indicator; 5lbs

Functional Description:

Used to establish the dimension from the actuator locating pin to the centerline of the rod end pin within 0.012 inch of the same dimension measured on the actuator being replaced

Reference Data And Literature:

To 1f-15c-4-6 & serd 3243

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
