End Application:

F/15a acft; constant speed mechanical drive series 711595

Nominal length:

8.000 inches

Nominal width:

10.125 inches

Nominal height:

2.000 inches

Special Features:

Co. Name-holding fixture, housing constant speed drive

Functional Description:

Used to assist when installing the flanged bearing liner into the center housing during maintenance of the constant speed drive

Unpackaged Unit Weight:

2.000 pounds

Reference Data And Literature:

Serd no. 3261; to 9h6-3-36-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
