Overall Length:

13.750 inches

Overall Height:

9.750 inches

Overall Width:

11.440 inches

End Application:

E-3a aircraft

Product Name:

Dummy load, electrical

Functional Description:

Used with the radar test set an/apm-401 to simulate a receiver-transmitter rt-1126/a and to provide test points to evaluate output signals of the test set during maintenance

Material:

Aluminum alloy

Reference Data And Literature:

To 35-1-251-1 & 33d7-36-35-1

Type/model Designation:

Da-679-/apm-401

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
