End Application:

F/15 aircraft age.

Nominal length:

60.000 inches

Nominal width:

12.000 inches

Nominal height:

45.000 inches

Special Features:

Aluminum, steel, fiberglass; company name-drill fixture, link assembly removable r.H.

Functional Description:

Used to position, hold, and drill and ream bushings and holes during in line hole generation and to align mold line contours of the drop-out-link to exiting fuselage contours

Unpackaged Unit Weight:

60.000 pounds

Reference Data And Literature:

Serd no. 3240

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
