Overall Height:

9.500 inches

Overall Width:

13.250 inches

End Application:

A-10 acft

Product Name:

Test set, pressure transducer

Special Features:

Consists of cable assemblies; meters; approx. Wt. 20.000lbs; depth 9.180 in; ht. 9.500 in; wd 13.250 in; operating temperature low value 32.000 degrees "f"/0.000 degrees c; hi value temperature 131.000 degrees "f"/55 degrees c; operating humidity type 95.000 percent; 115 vac; 400 hz frequency

Functional Description:

Used to test the functional accuracy of the pressure transducer; provides the necessary power; reference supplies and loads required to test a pressure transducer

Reference Data And Literature:

T.O. 33da97-14-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
