End Application:

F/15a aircraft age.

Nominal length:

9.000 inches

Nominal width:

8.000 inches

Nominal height:

3.000 inches

Special Features:

Company item name-holding fixture, precision voltage

Functional Description:

Used to hold the precision voltage divider cca in a convenient position for the operator and protect the operator from exposure to high voltage

Unpackaged Unit Weight:

3.000 pounds

Reference Data And Literature:

Serd no. 3340

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
