End Application:

F-15 aircraft age.

General Description:

115.0 v, 60 hz, 3 phase input power rqmt, 50 to 70 freq sense band, 1 second drop-out time delay, 2 second pick-up time delay, used to sense voltage, frequency and phase characteristics of single or 3-phase power lines, allowing normal operation of system loads when the power line characteristics are within predetermined limits

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
