End Application:

A-10 aircraft air turbine engine starter, model ats100-395a & b

Special Features:

To name: turbine starter test console; c/o pressure control panel assembly; switch panel assembly; torque indicator; electrical indicating panel assembly; pressure indicating panel assembly (starter inlet pressure); pressure indicating panel assembly (airflow measuring section); temperature indicating panel assembly; 115.0 vac, 60.0hz, single phase; 28.0 vdc; 78.560in h, 67.440 in l, 34.000 in w; 500.0 lbs

Functional Description:

Provides the instrumentation and controls required to operate turbine starter test stand assembly, also provides inlet air pressure and air temperature to starter under test
