End Application:

F/15a aircraft age.

Nominal length:

47.000 inches

Nominal width:

22.000 inches

Nominal height:

11.000 inches

Special Features:

Aluminum; company item name-alignment adapter, radar antenna mount

Functional Description:

Used to align the phased array antenna to the aircraft boresight reference plane

Unpackaged Unit Weight:

65.000 pounds

Reference Data And Literature:

Serd no. 9175

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
