Overall Length:

16.000 inches

Overall Height:

12.000 inches

Overall Width:

14.000 inches

End Application:

E-3a awacs aircraft age

Product Name:

Outflow valve breakout box

Special Features:

Consists of a breakout box containing test jacks, switches, and connectors, and two cables and connectors for mating with the cabin pressurization system outflow valve

Functional Description:

Used to provide access to the interconnecting wiring of the cabin pressurization system outflow valve while the system is operating to facilitate troubleshooting and fault isolation

Precious Material And Location:

Cable connector pins gold

Precious Material And Weight:

0.040 gold grains, troy

Precious Material:

Gold

Reference Data And Literature:

To 35-1-251-1 & 1e-3a-2-21-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
