End Application:

F/15a aircraft age.

Nominal length:

6.000 inches

Nominal width:

6.000 inches

Nominal height:

3.500 inches

Special Features:

Company item name-inner roll and azimuth storage fixture

Functional Description:

Used to provide safe temporary mounting of inner roll azimuth assembly during repair of the outer roll pitch assembly

Unpackaged Unit Weight:

1.000 pounds

Reference Data And Literature:

Serd no. 3386

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
