End Application:

E-3a aircraft age.

Inclosure Feature:

Single item w/housing

Test Type For Which Designed:

Measuring magnitude of applied mechanical forces

Special Features:

Provides precise readout for devices such as springs and tensile testers, prony brakes, tension or compression regulating systems and other special purpose equipment; capacity x graduation 25 lbs x 0.05 lbs

Functional Description:

Large dial instrument for measuring and displaying the magnitude of applied mechanical forces

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
