End Application:

A-10a aircraft linear electromechanical elevator trim tab actuator assembly 1618t100-14

Special Features:

To name: actuator loading test fixture

Functional Description:

Used for electrical and mechanical testing of the actuator

Reference Data And Literature:

To 8d1-64-18-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
