**End Application:**

F-100 engine; fuel control series 8062

**Nominal length:**

2.000 inches

**Nominal width:**

4.000 inches

**Nominal height:**

6.000 inches

**Special Features:**

Company name-fixture assembly

**Functional Description:**

Used to assemble the differential pilot valve bracket assembly

**Reference Data And Literature:**

To 6j3-4-80-4

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
