End Application:

F-100 engine; fuel control series 8062

Nominal length:

2.000 inches

Nominal width:

4.000 inches

Nominal height:

6.000 inches

Special Features:

Company name-fixture assembly

Functional Description:

Used to assemble the differential pilot valve bracket assembly

Reference Data And Literature:

To 6j3-4-80-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
