Overall Length:
1.000 inches
Overall Height:
12.000 inches
Overall Width:
3.000 inches
End Application:
TF34-GE-100-TURB
Functional Description:
Required to calibrate the tachometer servo piston travel calibration at final assembly
Reference Data And Literature:
To 6j3-4-106-4
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
