End Application:

Pave tack system, an/avq-26

General Description:

Consists of two principle sections, a chassis frame section constructed of square aluminum tubes, and a rotating cradle section shaped to conform to curve of the pod structural rings; cradle section consists of upright supports and three semi-circular cradles which rotate 80 degrees to accommodate the pod, cradle is rotated by a crank, the cradles support the pod at three ring stations, 61, 100, and 130. A neoprene rubber cushion is bonded to the surface of the cradles to prevent damage to the pod finish. O/a dim 95 in. Lg, 28 in. W and 42 in.

From the floor to the pod ctr line
