Functional Description:

Designed to test/calibrate the f100 turbine eng unified fuel cont. And major subassemblies. The function is to meter fuel and schedule nozzle area for the f100 engine

Reference Data And Literature:

Serd no. 3410

Supplementary Features:

F100-pw-100 engine (f-15 acft)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
