Overall Length:

16.000 inches

Overall Width:

12.500 inches

General Description:

Major components, connector 1, diode 3, terminal 2, resistor 4, power supply 2, zener diode 1

Fsc Application Data:

Tactical electronic warfare system, intermediate test equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
