End Application:

An/aaq-10, infrared detecting set

General Description:

Consists of dual output temperature controller, and dual thermoelectric target assembly; configuration mil-t-28800b, type 3, class 5, style e; finish - color y light gray (semi-gloss), type 3, class 2 of mil-e-15090; operates at: altitude of 3050 m, temp. Range 20 to 30 deg. Celsius, relative humidity type 0-95 percent, funguse proof

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
