End Application:

F-16a/b aircraft age.

Product Name:

Cap-test, 4.0 inch diameter bead outlet port

Special Features:

Used to perform pressure and linkage testing of heat exchanger for conditioned air for cabin and equipment; must be capable of retaining a of 38.8 +0.5, -0 psig air pressure

Unpackaged Unit Weight:

2.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
