**Overall Length:**

18.500 inches

**Overall Height:**

9.300 inches

**Overall Width:**

19.000 inches

**End Application:**

C14 (f), c130e(g) aircraft age

**Product Name:**

Digital module tester

**Functional Description:**

Provides automatic control of the load and verify operations for the as 24 drum memory; comes w/ 64 pins of digital signals, a prom card, and interface connector

**Reference Data And Literature:**

T.O. 33d7-33-211-1

**General Description:**

Gprovides automatic control of theload and verify operations for the asn-24 drum memory. Comes w/ 64 pins of digital signals, a prom card, and interface connector. 19.000 in. W, 18.500 in. Dp, 9.300 in. H

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
