End Application:

J85-ge-13/17/21/21a turbojet engine

Unpackaged Unit Length:

86.000 inches

Unpackaged Unit Width:

77.000 inches

Unpackaged Unit Height:

78.000 inches

Product Name:

Test stand, overspeed governor

Special Features:

C/o 2 sections; removable panels and folding door for repair access; angle iron and sheet metal construction, one air purge box house non explosive type electrical equip. And maintains an internal pressure of 0.1 in of water above atmospheric; remote electrical cabinet houses control equip and must be located in a non-hazardous area, cabinet size is 42.0 in lg, 8.0 in w, 59.0 in h

Functional Description:

Used to provide the capability of testing/monitoring the operational parameters as established for over speed control assembly and the isochronous governor assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
