End Application:

F-5e aircraft variable geometry actuator

Product Name:

Test stand, actuator

Special Features:

Steel; 30.0 in x 30.0 in x 34 in; roll around with 4 swivel casters-2 with locking feature; work area on top with hand pump, pressure gage, and stainless steel drip tray; lower part provides for vertical mounting arrangement and a 325 lb weight required for friction test; finish- gray paint

Reference Data And Literature:

To 9h2-7-30-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-e
