End Application:

F-16 a/b aircraft age.

Nominalwidth:

12.000 inches

Nominalheight:

1.000 inches

Special Features:

Matl: aluminumcwbfa12.000

Functional Description:

Used for mtg individual/peculiar wing attach fittings on table of an end milling machine for facing inboard fitting surface aond on table of jig boring machine for drilling, spot facing, reaming the fuselage attach holes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
