End Application:

F-16 a/b/c/d

Product Name:

Torque test fixture

Functional Classification:

Gg-7.4

Functional Description:

Used in conjunction with the test to provide secure mounting for the torque motor assembly being tested

Unpackaged Unit Weight:

14.000 pounds

Reference Data And Literature:

T.O. 33a3-4-43-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
