End Application:

F15c/d

Nominal length:

120.000 inches

Nominal width:

40.000 inches

Nominal height:

20.000 inches

Special Features:

Aluminum, steel, resin impregnated fiberglass

Functional Description:

Used to facilitate repair of inboard I.E. Structure

Unpackaged Unit Weight:

250.000 pounds

Reference Data And Literature:

Serd no 9438

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
