End Application:

F-16a/b aircraft age

Nominallength:

43.000 inches

Nominalwidth:

29.000 inches

Special Features:

Matl: galvanized steel

Functional Description:

Used to facilitate assembly/disassy operations by adapting engine start assembly gearbox to the roll-over stand during overhaul

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
