End Application:

F-16 aircraft age.

Precious Material:

Gold

General Description:

Stainless steel; 1.125 in. Dia, 3.5 in.L w/o conn; response time less than one millisecond; input power not to exceed 2 watts; output impedance less than 500 ohms; full scale output 5.0 vdc; excitation 28 vdc; infinite resolution; operating temp m40 degrees c to p52 degrees c; oper. Pressure range is from 350 psig to 450 psig; burst pressure 5times rated full pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
