Major Components:

Printed wiring board 1; resistor 43; relay 1; diode 11; crystal diode 1; integrated circuit 3; transistor 7

End Application:

F-16 aircraft age.

Component Quantity:

67

Usage Design:

Current control, a3

Mounting Configuration:

Plug-in prongs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
