End Application:

Aircraft f-16 a/b, general dynamics

Nominal length:

6.000 inches

Nominal width:

6.000 inches

Nominal height:

8.000 inches

Functional Description:

Adapts the compressor and turbine rotor to a balance machine

Unpackaged Unit Weight:

10.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
