Overall Length:

6.000 inches

Overall Height:

1.500 inches

Overall Width:

8.000 inches

End Application:

F-15a/b/c/d, fmf-15a, f-15j/dj, saf-15c/d aircraft age.

Functional Description:

-used to simulate input signals to and displays outputs from sequencer when trouble shooting programs

General Description:

Miscellaneous materials, power required 7.5 vdc, 0.33 amp, operating temperture range 0 degrees centigrade to 55 degrees centigrade, storage range minus 40 degrees to 85 degrees centigrade;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
