Major Components:

Printed wiring board 1; capacitor 6; microcircuit 14; resistor 13; test point 9; polarizing key 2; retainer-ejector 2; connector 1

End Application:

F-16 aircraft age.

Component Quantity:

48

Usage Design:

Radar e-o electronic unit

Mounting Configuration:

Plug-in type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T01200
