

View Online at <https://aerobasegroup.com/nsn/4920-01-083-2644>

Special Features:

Test set digital module/computer program control provides capability to; apply input patterns to uut/read output patterns; probe with surgical steel point on uut to determin logic state on internal node of cca; convert serial data to parallel/vice versa; measure and record rms ac voltages if 4 decade ranges 1vac to 100v full scale, ohms in 6 decade ranges 100 to 10m ohms full scale, frequency rand 0-10 mhz direct count, period range 10-10mhz, time intervalr range 10 ns to 100000000s; switch signals between digital pattern test and analog devices; make continuity measurements and check for shorts on electrical wiring harness

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T228-a
