**End Application:**

Test set oq-276/axn

**Special Features:**

3.000 in. H., 12.000 in. W., 22.000 in. D.; bench or shelf mtd

**Functional Description:**

Provides a buffered electrical interface between video symbology test signals output from converter, signal data, cv-3577/a and input to generator

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A537k0
