Overall Length:

40.500 inches

Overall Height:

59.625 inches

Overall Width:

23.570 inches

End Application:

T56-a-15 engine

Wattage Rating:

400.000 watts

Voltage In Volts And Current Type:

115.0 ac

Material:

Steel or aluminum alloy

General Description:

Perform the post overhaul of the engine coordinator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
