Overall Length:
40.500 inches
Overall Height:
59.625 inches
Overall Width:
23.570 inches
End Application:
T56-a-15 engine
Wattage Rating:
400.000 watts
Voltage In Volts And Current Type:
115.0 ac
Material:
Steel or aluminum alloy
General Description:
Perform the post overhaul of the engine coordinator
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:

No
