End Application:

F100-pw-100; f-15abcd

Nominallength:

5.000 inches

Nominaldiameter:

2.000 inches

Functional Description:

Used during machining operations during depot engine maintenance

Reference Data And Literature:

Engine rebuild tech data

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
