End Application:

J85-ge-21/21a turbojet engines

Nominal length:

16.000 inches

Nominal width:

15.000 inches

Nominal height:

6.500 inches

Special Features:

Steel and aluminum; company item name-fixture anti icing bellows

Functional Description:

Used to hold anti icing tube assembly in proper position for removal and holding new bellows during welding replacement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
