**Overall Length:**

4.000 inches

**Overall Height:**

3.000 inches

**Overall Width:**

2.000 inches

**End Application:**

F-100-pw-100 jet engine age.

**Product Name:**

Cover, protective, probe

**Special Features:**

A formed and machined corrosion resistant steel band

**Functional Description:**

Used to protect probe coils from damage during the temperature sensor over haul process

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
