Overall Height:

25.000 inches

Overall Width:

30.200 inches

End Application:

B-52g/h aircraft age.

Product Name:

Test set, attitude

Functional Description:

Uses circuitry of slave electronic control amplifier to perform attitude heading and gyroscope set subsystem tests to detect and isolate malfunctions and/or verify serviceability of a line replaceable unit; 115 vac; 3 phase; 400 hz; req dedicated electronic control amplifier

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
